What has become of the grand mammoth concert in aid of the Nevada passed by the last Legislature relating Building Association and public charities, to the flow of water in the Truckee.

Judge Wright, of San Francisco, has set July 31 for the election of a new Board of Directors for the Exchequer, and August 1 for the election of a new Board for the Bullion Mining Company.

The Department anticipates having to do the largest proportion of silver ta tenguA io dinom edt gnirub eganico the Philadelphia Mint, owing to their inability to procure silver at the market rates for the Western Mints. This is bad for the Carson Mint.

Judge Stephen J. W. Tabor, Fourth Auditor of the Treasury, has resigned that position, the resignation to take effect August 1, next, Judge Tabor has been Auditor for the past sixteen years, and it is expected that the vacancy caused by his resignation will be filled by the promotion of Mr. W. B: Moore, the present Deputy Auditor.

The great majority of a French parliamentary committee, nominated to consider the policy to be adopted for the railways connecting at Orleans, are favorable to the buying up of the lines by the State. This disposition appears to be due to Prince Bismirck's recent declarations relative to railway tariffs. The Chambers think that the French Govecampat should have absolute control of the French railway tariffs, so as to be able to neutralize any attempts of Prince B.smarck to establish a protectionist railway tariff.

The English papers state that the Governor General of Canada and the Princess Louise are about to make a tour in the United States, on which the Marquis will write a book, to be illustrated by his wife. The former has given a commission to a firm at Troy to baild two saloon cars for him-one a sitting room and the other a smoking room-at a cost of £1,000, and these will be used for the American tour, and also for the purpose of a viceregal trip which it is proposed to make in Outario.

They were walking along the village signs, "ice-cold soda" and "lemon ice cream," said, "Darling,ice is very bad for the teeth; it rains the enamel." Then she took out her new set and putting them gently behind the tying post said. "Sweety, we will take all the precautions and save all the enamel

Indian News .- Secretaries McCrary, Thompson and Scharz considered on prevent hostilities with the Indians should be taken and anticipate no con flict. It is thought to be the intention of General Miles to reconnoitre Sitting Bull's camp. Special and positive instructions were sent out by the War Department to prevent Miles from bringing on an Indian war, and telling him that the only purpose of sending him into the field was to protect navigation on the Missouri.

Suggestions have appeared in the Paking Guzatte pointing to the possible ablication of the youth'ul E nperor and the enthronoment of some other membe of the family. This is owing to critcism upon the unprecedented circumstances that the present Emperor was chosen from the same generation as his predecessor, instead of a later, so that they cannot follow the time honored custom of worshipping his ancestor. He is in fact first cousin and the adop tod brother of the late ruler, and ancien forms of State ceremonies will require an entire change if he continues to reion. Trifling as the difficulty appears to foreign eyes, it is considered a most diffigu.t problem in Peking.

G :OWTH OF THE NEGRO EXODUS .-Haolson, an intelligent colored man w . . was formerly a Congressman from Alabama, declares that the negro exodus has hardly begun yet, and predicts that it will start anew this Fall with a wholesale sweep not dreamed of. He and moral destinies of the British peosays that no less than 15,000 blacks will ple as that influence which sits enthronleave the First District of Alabama alone.

ed on the beer butts of Barton! There is a large class of good men, in both Great Britain and America, who look Great Britain and America, who look of going North, and nothing will stop upon beer-drinking as a thing almost them. He is not much in favor of the movement, but he finds it entirely uses for rum or gaussiant with the finds it entirely uses for rum or gaussiant well, it is time all this ple to drink it. Well, it is time all this wars above all. less to argue against it. He thinks were changed. Beer is the archenency of our reform, upon beer let us concennow, and favors some of them going to trate our special energies. So thern Illinois, Indiana and Oh'o. While they are eager to go away, they would remain at home could they be sure of fair treatment.

THE TRUCKEE WATER.

In yesterday's Journal was a call for a meeting at the Court House, on Saturday. August 2d, of all farmers on the Truckee Meadows, and all others who have any interest in the water of the Truckee, to make arrangements for the carrying out of the provisions of an Act The time is not far distant when this water question will have to be decided. and as litigation is generally slow, it might be a good idea to institute proceedings now, so that we can have a verdict in a couple of years. Our pecple are being put to an expense of several hundred dollars every season, simply because the flow of water is not regular, and because it is subject to the whims and wants of the mill men at Truckee, who, by their "flood dams," regulate the flow to suit them, entirely: indifferent as to how it may effect those who have a right to its use in this State.

GRANT IN THE FAR EAST.

Received with Enthusiasm by the Chimeac-Conferences with Leading Dignitariesat Pekingand Tientein

The steamer City of Peking brings news from Hong Kong to the 29 of June. General Grant on his arrival at Tientsin, eign residents, delivered by the chair- ster, but the western portion of Munster nan of the Municipal Council. On May 30th a grand banquet was given by the have already the Chinese authorities in honor of the distinguished visitor in the principal native temple. The Viceroy of Chihli, the Comman ler-in-Chief and Grand Secretary, Li Hung Chang, presided.

AT PEKING. No such at entions were ever before bestowed upon any foreigner at Peking. General Grant during his stay occupied the American Legation. Calls were exchanged between him and Prince Kung, a long interview taking place at Isung li Yamen, in which many important public questions were discussed. He was also largely entertained by the highest native officials and by distinguished foreigners. The General left Peking on June 20th for Tientsin, where he held a second extended conference with Li Hung Chang, who is unquestionably the foremost and most power-limited in the Empire. ful subject in the Empire.

AT NAGASAKI. June 21 in the Richmond, accompanied derstood. Ireland's oldest duke, the by the Ashuelot; the latter bringing head of the Geraldines, has led the way, Judge Denny, the United States Consul and just as the prospect of bad times at Tientsin, and other friends from had become assured his representatives China. No formal demonstration was set to work to increase his rent roll, the made by foreign residents further than process being in many many cases re-an address of welcome by a committee peated in the short space of a dozen of thirteen, chosen to represent the years. Frequent en-tertainments were given by the Japan-Owing to the prevalence of cholera at Hioga and vicinity the original arrangements were changed. The party street, and they were newly wedded, husband and wife. The air was insuff to the fourth of July. Extensive preparations are still forthcoming on some places, but have been made fore the reception of in the counties which I have named General Grant, and although the guest of the nation, separate complimentary demonstrations are proposed. By imperial decroe his reception is to be in all respects identical with what would be accorded the reigning monarch of my European country.

The conduct of the British Admiral Coates is severely criticised. This officer left Hong Kong immediately before General Grant's arrival there; did the Thompson and Scharz considered on Thursday the Indian outlook in the Northwest. They are unanimously of the opinion that every precausion to prevent hostilities with the Indians. His action is understood to be in consequence of an unwillingness to give a salute of twenty-one guns. Of course the landocracy hold aloof, but the Indians. The British Minister inderses his action how long they can afford to do so recompanying him on the present mains to be seen. In the course of one ruise. John B. Gough, the temperance advocate, is now in England (where le was born,) and in his addresses pitches into beer-drinking "like a thousand of brick." John probably knows a good at Liverpool, a few days ago:

DARK CLOUDS IN IRELAND.

Starvation Imminent in the West-Droudful State of Affairs in Some Irish Countries-What of the Futuret

Dublin, July 3, 1879.

Those who can recall the fearful scenes of misery and destitution which pre-vailed in this country during the years '47 and '48, rendered remarkable by the failure of the potato crop, are not unlikely to witness a period almost as trying. A succession of bad seasons, ex-travagant rents, which are not only demanded, but wrenched from the unfor-tunate tenantry at the point of the bay-onet, and lowering prices on account of the vast increase in the importation of all edible commodities, have reduced the condition of the farming classes to a state bordering on bankruptcy, while the depression felt by the agricultural community has spread and continues to expand over all grades among the indus-trial classes. Dark clouds, indeed, hover over the land and in many places they have decended beinging acress they have descended, bringing starvation and positive ruin wherever they have fallen. Factories are closing in toto, the banks refuse to advance money except when unexceptionable security is forthcoming and although some land-lords are returning from ten to twentyfive per cent of the rents the vast majority must have their "pound of flesh," and thus there is every prospect of the country drifting into a state worse than what decimated it in the famine years already alluded to. Misery in its chrys-alis condition only has as yet made its was greeted by an address from the for- hideous appearance in Ulster and Leinand the entire province of Connaught have already bowed down under the aw-

MAYO AND BLIGO.

From inquiries which I have persor ally instituted in Mayo and Sigo I can assert that in these countries the farming classes are on the threshold of the workhouse. Unprofitable seasons have, as I have said, led to this; but there is contributory causes and this is the sys tem of credit which traders allowed and which made the population anything but thrifty; and now, that dark days have arrived, their energies are paralyzed and officers in any direction appear unavailing. That districts not as yet included in the scope on which desolation has come must in a short time feel the terrible depression is certain, twenty per cent, and with fully thirty per cent of a decrease in the value of all General Grant arrived at Nagesaki produce their position can be easily unleases, were issued only to make the heel of oppression the more keenly felt, as clauses, rendered legal by an abortive Land act, were introduced to cripple the tenantry and oust them from any claims above, Sligo and Mayo, the landlords, have in many instances not a penny to receive. Their own cruel misrule has turned on themselves, and by impoverishing those by whom they had to live they at last feel the biting of want.

COLLECTION OF RENIS IMPOSSIBLE.

Not a week ago an agent informed me that on the day he appointed for collection of rents he had not received a cent. nor does he see any prospect of payin Mayo alone, so that taking the small average of six to each family we would have 4,800 persons in this country alone houseless—cast on the wide world, with no other shelter in their own land savo that afforded by the unions. On Sunday, the 29th of June, I attended a public meeting at Castlebar, which was promoted for the purpose of calling atten-tion to the threatened evictions on the estate of Miss Crean Lynch, and on that occasion a Mr. Daly, in speaking of the state of the district said be chal langed any commissioner from Dubim Castle or elsewhere to find within the walls of many of the people who are to be evicted "a second animal, barring a cat, and in some cases he was aware

THE DARK PUTURE.

But it is useless to pursue this strain. It is patent to every one that the owners of property must either reduce their rents or take the land on their own hands. They are not likely to adopt the latter course, and may err in post-poning the former until it becomes too late. The importation of cattle and sheep weighs heavily on prices of beef and mutton, but at the same time if it were not for the supplies from America and Spain ment would be a luxury only brick. John probably knows a good within the reach of the moneyed classes. leal, by experience, of the seductive influences of beer. Here is what he said not taking more cognizance of the depression which prevails; but if the Herald, which has over and over again been a friend to Ireland, raises its powerful voice on behalf of a much oppressed country I am sure good results will follow. In this communication I have avoided details, as later on I shall furnish instances of misery than which I do not believe human nature in a civilized and Christianized State ever endured anything more crashing,

ENRIGHT TIME TO OPERATE IN STOCKS.

By recent communication, with prominent stock operators, we learn that now is a favorable time to take advantage of the Stock market, by Messrs Lawrence & Co, the New York bankers, who have been so re-markably successful heretofore. This system is founded on correct rules of finance and is universally approved by the shrewdest operators. The orders of thousands of customers are massed into one immense capital, and operated as a great whole, dividing points pro rata every month. In this way any customer can invest from \$10 to \$10,000 with equal proportionate saccess, and at the same time gain all the advantages of largest capital and best skill in manipu-lating the market. This firm's new circular has "two unerring rules for success" and full explanations. 50 will make 250, or 5 per cent. 500 will return 3 000, and so on, accord-SUNDERLANDS ing to the market. CONKLING AND LAMAR.

[J. R. Young's Wash, Letter to the Star.] Coulding has the look of a man born

to lead and command. About Lamar's appearance there is nothing either hand some or attractive. In the gift of language both are experts; in manner and power of delivery Conkling is grand Lamar, on the other hand, is probably the most unattractive speaker in the Senate; his beautiful and effective sentences and rounded periods must be read to be appreciated. Conking is temper-ate in his his its. He nother danks liquor nor uses tobacco in any shape, This enables him to have his brain clear and bright on all occasions. Lamar, while not what is termed a drinking man, is given to different sorts of stimulant-or anti-stimulant, if you please-the eating of opium. This has the offect of keeping him in a chronic listless and lazy mood. It is rarely he says anything in the Senate. He is generally in his seat, and probably no man on his side is more sought after for his judgment and good sense about what is current business. He acts as if he did not like politics, as if he were either out of his element, or that he was playing a faise role,

The wheelbarrow men, who arrived in New York Thursday from California, reported that they had no serious accidents, were bothered some by tramps, but revolvers kept them off. They were told occasionally en route that they were a pair of lunatics. They go to Europe to wheelbarrow.
